

Found the toolkit helpful? There's more we'd like to share with your team.

A free 30-minute mould management education session for your property management team, in person at your office.

We'll walk your team through what happens between a tenant's first mould report and a closed file, drawing on what we see on site, and leave plenty of time for questions.

What the session covers

The first 24 hours after a tenant reports mould

Why a photo shows the growth but not the whole picture

Moisture readings, reports and what belongs in the file

Time for your team's questions

 30 minutes

 At your office

 Free for your team
